

Enhancing the uptake of biomethane in Europe

Prepared by:

Myrsini Christou

CRES

Head of Biomass Department

Date: 3 July 2025

Policy workshop

Brussels

Funded by
the European Union

GreenMeUp is a Horizon Europe project to facilitate the wider market uptake of biomethane in the EU

Fostering
**biomethane
production** in
Member States with
less-developed
market rates

Increasing **social
acceptance** and
awareness
through science-
based evidence

Designing a set of
market uptake
measures for
biomethane
deployment

Advanced countries

Target countries

Green biomethane market uptake –Horizon Europe

2022-2025

€1,999,933.75

15 partners from 11 European countries

RESEARCH CENTERS
BIOGAS ASSOCIATIONS
SMEs

Approach

Aligned in three pillars: **Market, Policy and Society** that run throughout **Geographic and country-relevant specificities in Europe and beyond** (Advanced and Target European countries, Mission Innovation countries), tackling also **innovation and standardization** issues.

Specific objectives

SO1: To evaluate the framework conditions and market dynamics of the biomethane in ten of the most advanced in biomethane market European (including Germany and Italy) and Mission Innovation countries.

SO2: To evaluate the framework conditions and market dynamics of biomethane production in Target Countries with low market development (Greece, Spain, Poland, Latvia, Estonia, Czech Republic, and the Danube Region)

SO3. To assure active engagement of stakeholders and societal acceptance with the involvement of actors representing all stages of the biomethane value chains through science-based evidence and tools.

SO4. To design a country-tailored set of market uptake policy measures that will refine, focus and complement existing policy (e.g regulations, financial mechanisms and actions related to increased awareness and improved public acceptance).

SO5. Dissemination, Communication, Exploitation

Stakeholder Meeting, Greece

PESTEL Workshop, Czech Republic
